Trades Federation Orders Ballot on General Strike to Be Taken Tuesday.

Pretoria, South Africa, January 10 .-Not since the Boers laid down their arms to the Britons in 1902 has the Rand been so near war as it is tonight. Martial law will be declared at moon to-morrow. Many who predicted failure for the strike have become so alarmed they are pleading for white unity as protection against the horrors of a native uprising.

Johannesburg has the appearance of a besieged city. The calling out of the burghers has resulted in the gathering of 10,000 of the Old Free State burgh-ors, under command of the veteran Boer general, Jacobus II, de la Rey. IN COPPER MINES AT PISTOL'S POINT

Strikebreakers Are Imported Into Region by Misrepresentations.

REPORT IS RESULT OF INVESTIGATION

Made by Representatives of Department of Labor-Secretary Wilson Intimates Findings Might Be Made Basis of Proposed Congres- , sional Inquiry.

Washington. January 10 .- Report of he Department of Labor's investigation of the Michigan copper strike. made public here to-day, declares that strikebreakers were imported into the opper region by misrepresentations: that some were taken to the mines at the point of pistols; that strikers were wounded by firearms in the hands of armed guards, but that no evidence was found of officers being injured by the strikers.

It was pointed out that while many if the smaller copper mining companies in the region were operating at a loss, the Calumet-Hecla Company, which employs more than 50 per cent of men in the region, had "had extremely large profits." With an authorized capital of \$2,500,000, of which \$1,200. 000 was paid in, the report declares that since 1871 the company has paid \$121,050,000 in dividends and reinvested \$75,000,000 in its property.
